We offer many different designs and style variations from modern stainless steel and glass to traditional turned or plain timber balustrades. We have a style to suit you.

- Contemporary staircases with simple clean lines using modern materials such as stainless steel cabling and glass panels.
- Stainless steel tubing - vertical or horizontal, round or square.
- Custom made, decorative wrought iron.
- Traditional room or area dividers.
- KITS — We can supply external stairs in kits, flat packed, ready to assemble delivered to your site.

Most of our work is performed in the North Western Suburbs of Melbourne, extending to the Macedon Ranges. However, because we offer unique skills in staircase and handrail work, we are happy to send jobs around Australia and overseas. We can make all the pieces for the staircase,

We use a variety of special timbers to create your staircases.

From affordably priced pine and MDF to quality timbers.

Other choices include Victorian Ash (kiln dried hardwood) - polished staircase.

We can also manufacture staircases using the timber of your choice to match your existing flooring timber.
